A little bit about Alister & Oz...

Alister & Oz are two gorgeous male guinea pigs who came to us along with 46 other guinea pigs. They are friendly but a little shy as they had not had much socialisation in their previous home. They are slowly getting used to having people around them and learning we are not all that bad. We have seen so much improvement in these two guys since they first arrived at the centre and their characters are growing day by day, we are now even getting the typical guinea pig cry at veggie time which they did not do when they first came in. Alister and Oz will need to go as a pair, we will not split them up. Guinea pigs must live in the house with you in a penned off area of a room, they must have access to an outside area that is covered and fully enclosed. A shed with a 6ft run attached full of enrichment is great, if it is a hutch it must be a 6ft single storey hutch with a 6ft run attached. They must not be left outside in the colder months.
