A little bit about Barry...

Barry is a sweet lad who came to the centre after he was hit by a car and his previous owner could not give him the treatment he needed. Sadly Barry had some quite serious fractures so has spent quite some time in our care whilst he was healing. Barry has been an absolute star throughout his treatment and he is now ready to start looking for his forever home. Barry was understandably very bewildered when he first came to us, slowly as he settled in and his injuries started healing his friendly and loving nature started to shine through. He is still easily spooked, but he just loves a fuss and will come for a head bump and good old fuss. He loves to stretch out and snooze and when the sun is out he will take full advantage for a nap in the sun. Barry will need a completely safe area where there are no busy roads if he is to go out, as we do not want a repeat of his accident. He would also be suited to being a permanent house cat. He could live with children aged 14 years and over.

My personality...

I need to be the only cat

I'll probably spend more time inside

I could live with children of secondary school age

I'm a shy guy; I'll need time to settle
