A little bit about Prince...

Prince is a sweet boy who came to the centre via an inspector after his needs were not getting met, after lengthy legal proceedings, Prince is now able to find his forever home. Prince can be quite shy around meeting new people but he does not take too long to get to know you. He loves both his food and toys and loves to play which makes it easier to build a bond. Prince is happy boy who always has a smile on his face, he loves nothing more than spending time with his people either playing around or getting fussed. Adopters will need to guide him and help him adjust to family life and reintroduce him to the big wide world. Prince has so much left to experience as he has missed out on so much in his previous home. He is looking forward to a bright future with a loving new family who will cherish him. Prince walks well on a lead, loves being out and about on his walks and just needs a family now who will love him unconditionally. Prince will need an adult only home and could possibly live with a female dog after a successful introduction at the centre.
