A little bit about Jakob...

Jakob came to the centre as his previous owner could not meet his needs any longer, he is a great little lad who has sadly not had a very stable upbringing until now which has left him with a little bit of baggage. It is very sad that a dog so young has had such a tough time that he has been left needing specialist help with our behaviourist. Jakob is young enough to overcome his insecurities with the right help. He is an intelligent little lad with so much potential to be a fantastic family pet. Jakob is a busy little terrier so will need adopters who will not only keep him physically stimulated but mentally as well. He is a super little dog who deserves to be a loving new home with adopters who have the time and patience to help him along the way. Jakob will need adopters who are at home most of the time while he is still so young, they will need to meet with the centres behaviourist to give him the best chance of a successful adoption. Jakob is suitable to live with a compatible dog after a successful introduction at the centre, he will need an adult only home.
