A little bit about Ice...

Ice is a sweet girl who originally came to the centre with her three puppies. She came to us via the inspectors after her and her puppies needs were not getting met. She was quite underweight on arrival and generally quite run down, since weaning her puppies and getting the correct diet and lots of TLC Ice has flourished and slowly but surely we are seeing her true character coming through. Ice is quite a lost soul and is desperate for some stability from a loving family, a family that will love her unconditionally and show her how much fun there is to be had. Ice will need experienced owners who will help her overcome her insecurities and bring out the best in her. Ice will need adopters who are experienced with large breed dogs, she would benefit from living in a quiet area where she would not be around the hustle and bustle of city life. Ice is quite strong on the lead but this is something staff have been working hard on along with our behaviourist. She will need adopters who are willing to work alongside our behaviourist to carry on with her training. She can be vocal when passing some other dogs but is now completely muzzle trained so please do not let this put you off. She will also come with full rescue back up to help her settle in to her new home. She will need to be the only pet in an adult only home.
