A little bit about Clover...

Clover came to the centre via an inspector as her needs were not getting met, she was removed from a multi dog household where she really had a tough life. Clover has not had much experience outside the confines of her previous home so everything needs to be done slowly in a controlled way. Clover has a training plan in place which the staff are working hard at with her, she is loving the training as she is such an intelligent girl. She loves the bond she builds with her handler and is super happy being with them. Clover is a great girl with a fabulous character and has come on so much since first arriving here at the centre. Clover will excel in a home with experienced owners who will continue with her training and continue to help her overcome her insecurities. Our behaviourist is on hand for post adoption support should it be needed and she will advise before adoption the best way to help her settle in. Clover would be fantastic with a job to do, for example scent work, agility or other similar activities. Clover has so much to offer a new family and really will make a fantastic addition to the family. She will need someone at home most of the day to help her settle. Clover is sociable with other dogs and will need an adult only home.

My personality...

I'd love to learn agility or fly ball

I need teaching that it's ok to be alone

I need an adult only home

I'm a bright spark

I may be able to live with another dog

I love fuss and attention
