A little bit about Holly, Kim & Megan...

These gorgeous girls were brought to the centre via inspectors after being found living in the most appalling conditions. Their coats covered in urine and faeces and lots of matts, they must have been in so much discomfort. They have now started their road to recovery and we now feel they need to start their search of their forever homes. They have all grown up in a multi dog household and sadly had no experience of the outside world, we are slowly introducing them to new situations and people. They are coming on great but things must be taken slowly as to not overwhelm them as everything is a little bit scary at the moment. They will all need understanding adopters who will give them the time, patience and love they need to adjust to living in a family home. They are very nervous when meeting new people which is to be expected due to the nature of their previous life, adopters must be willing to do various meets with them before adoption. They are such sweet girls who are so desperate to be friends and will make great additions to the family. Abby is the most confident of the group, she loves a ball and loves to investigate nose to the ground. Age 8 months old. Holly again is ball mad, lively and active. Age 1 years approx. Kim once she knows you is quite very clingy and loves to be with you getting snuggles otherwise keeps herself to herself. Age 1 year approx. Megan is the oldest of the group, who loves to be with you once she has gained your trust. Age 2 years approx. These girls will need adult only homes and can be homed separately but with an existing dog.
