A little bit about Princess...

Princess is a very sweet girl who came to the centre via an inspector, on arrival she was a very scared and subdued little girl who just needed some quiet time to settle in and decompress. Now she has settled, she is starting to relax and realise people are not too bad after all. She enjoys a fuss and will now come to you when you open her cubicle and get a nice fuss, she enjoys playing with the wand toys with you as well. Princess still can get a little scared when its noisy or busy so a nice quiet home with patient adopters is what she needs, in a home once she has settled she really will make a super addition to the family. Princess will need to be the only pet in an adult only home where she will be a permanent house cat.

My personality...
