Kleo

## A little bit about Kleo...

Kleo is a very sweet girl who came to the centre after her owner passed away, she is a great little girl who loves her fusses and just loves spending time with her people. Kleo can get spooked easily but comes round very quickly, once she realises it is someone she knows she comes running for some snuggles. Kleo is quite a chilled quiet cat who can often be found snoozing away in her bed or day dreaming out the window just watching the world go by. Kleo would make a super little addition to the family, she would love to snuggle up on the sofa with you while you watch tv or read a book, do a puzzle anything, she just loves company. Kleo will just make a really lovely pet for the family lucky enough to adopt her. Kleo could possibly live with another cat after a careful introduction, she could live with children aged 12 years and over and would need to be a permanent house cat.
