## A little bit about Lucky...

Lucky is a sweet boy who came to the centre after his previous owner could no longer keep him, he is an active boy who has missed out on so much in his past and he is now living life to the max. He is a friendly happy dog who is just desperate for a family to give him the love and stability he has missed out on. Lucky has had some basic training but still needs some extra training, he is eager to learn and really enjoys engaging with his people and loves learning new things. He does need some work on his recall so his adopters will need to dedicate some time for that. He will need active an home with a family who will take him on long walks and exciting adventures, he is a wonderful boy who will be a very loyal best friend. Lucky could possible live another compatible dog after a successful introduction at the centre and could live with children aged 10 years and over.

### My personality...

I'd love to learn agility or fly ball

I need teaching that it's ok to be alone

I could live with children of secondary school age

I'm a bright spark

I may be able to live with another dog

I love fuss and attention
