A little bit about Molly & Rex...

Molly and Rex are two really sweet little dogs who came to the centre after their devoted owner sadly passed away. They are very much bonded to one another so we are looking for a home where they will be homed together. Molly and Rex are super little dogs who walk very well on the lead, love being out and about having gentle strolls and love a fuss and a cuddle. Rex loves to play with his toys with you and will bring them to you for a bit of chase and tuggy war, Molly prefers the more sedate style and will quite happily just sit on your knee watching the world go by. They will make the most smashing additions to the family and will bring their adopters so much happiness and joy. Rex does have sensitive skin and is on daily medication for this and that keeps him itch free. Molly has recently undergone major life saving surgery to remove one of her kidneys, she has recovered from this so well and we are so proud of her to overcome this life threatening condition and now she acts like she has never had anything done. She is now fit and healthy and ready to start a new chapter in her life with little Rex by her side. Although sociable with other dogs on a walk Molly and Rex are better suited to being the only pets in the home and could live with children aged 10 years and over.

My personality...

I walk nicely on a lead

I need teaching that it's ok to be alone

I could live with children of secondary school age

I'm small but full of fun

Please adopt me with my friend

I love fuss and attention
