A little bit about Hatchi, Aubrey & Bailey...

These gorgeous guys came to the centre via an inspector after they were removed from their previous home due to being found in terrible condition. After lengthy legal proceedings they are now available for adoption and we can find them their forever homes. They came to the centre emaciated and suffering from untreated feline viruses, with lots of good vet care, patience and love they are now healthy and ready to find their happy ever afters. One of the virus's that they carry is Calicivirus, which sadly means they can not live with other cats as they are carriers of the virus. They are managed very well and live a happy comfortable life. They can be very shy and aloof with people they do not know but when they do know you they are extremely loving, loyal and affectionate. They are so entertaining with their quirky ways and antics, time spent with them is never boring. Aubrey, Bailey and Hatchi like a good rough and tumble play and will chase toys and each other around for ages. Bailey is such a gentleman and will take any opportunity to launch himself on your shoulders and will stay there even when you are walking around. Aubrey is the vocal, cheeky and mischievous one who is always on the look out for what trouble he can get himself into. Hatchi is the guietest out of them and more aloof, he will come for a fuss but only when he wants it, when he does come for a fuss he totally enjoys it. The boys are always darting about here there and everywhere, normally with a toy in their mouth. They are very vocal, be it purring or meowing, they crave human affection when they know you and are just amazing cats. They have been through so much and had the will to fight and overcome the neglect they have suffered and deserve to be in a home. We would really love the boys to all go together as they do get on so well, it is a big ask but they really do love each other so much. Aubrey and Bailey are brothers and Hatchi is their step brother. They will all need an adult only home where they are the only cats and also permanent house cats.
