A little bit about Blue...

Blue is a really lovely lad who came to the centre as unfortunately his previous owner could no longer keep him. Blue is keen to go out on his walks and loves being out and about, busy places can be a little daunting and overwhelm him a little but he is getting more confident everyday. Blue loves his cuddles and will take every opportunity to jump on your lap, he would love a family who will snuggle up with him and give him the love and attention he craves. Blue is very sociable with dogs of a similar size but larger dogs do scare him a little. He has previously lives with other dogs and can do so again after a successful meet at the centre. Blue is not used to being left on his own and become a little anxious so new adopters will need to be at home most of the time and teach him it is ok to be left. Blue is a fabulous little lad who will make a wonderful addition to the family. Blue is suitable to live with children aged 10 years and over.

My personality...

I walk nicely on a lead

I need teaching that it's ok to be alone

I could live with children of secondary school age

I'm small but full of fun

I may be able to live with another dog

I love fuss and attention
