A little bit about Chip, Forest, Victoria, Cherry, Madeira & Bakewell...

These lovely puppies came to the centre via an inspector after their needs were not getting met as their previous owner could no longer keep them. Sadly they have missed out on so much socialisation during their early stages so understandably can be a little nervous in new surroundings and when meeting new people. They are making remarkable progress since arriving at the centre so they can now all start looking for their forever home. Adopters will need to carry on with their socialising and help them transition into their new homes with patience, love and understanding. They are growing in character and everyday they show a little more of their character, they are happy, playful puppies and just loves their home comforts. They love to investigate new things and love a snuggle, they really are ready to find their very own family. They will need adopters who are at home most of the time while they are still young, they are suitable to live with other dogs and children aged 8 years and over.
