A little bit about Mogwai...

Mogwai is a really sweet boy who came to the centre via an inspector after his needs were not getting met, unfortunately he missed out on so much important socialisation when he was a young puppy so his new adopters will need to introduce him to the outside world in his own time. Mogwai is an intelligent, friendly boy who is loving investigating things and learning everything that he has missed out on, he loves going for his walks even though some things do scare him but he wants to be out getting used to new things. Mogwai is very social around other dogs and gains a lot of confidence being around them. He has so much to offer a new family and really will make a rather fabulous addition to the family. He will need adopters who are at home most of the time while he settles and adjusts to family life. Mogwai can live with other dogs and children aged 13 years and over. Mogwai is currently kennelled with Karl his blind brother and they can easily be adopted together.
