A little bit about Poppy, Chase, Shadow, Pepper, Baxter & Reggie...

These lovely little puppies came to the centre via an inspector after their needs were not getting met, they have led a very sheltered life before they came here and have consequently missed out on early socialisation. They are quite timid at the moment so we are slowly introducing them to new things and situations. Adopters will need to ensure they have good experiences when socialising them. They will need to have adopters who are at home most of the time while they are still so young. They were ever so thin when they first arrived here, they are slowly putting on weight and gaining in confidence every day. They will make super little additions to the family and deserve to be happy in loving homes. They are suitable to live with other dogs, cats and children aged 10 years and over. Poppy is the only female of the group.
