## A little bit about Dolly Tina & Lulu...

These lovely little kittens came to the centre as they were found without a mother in a barn, they were very underweight and run down when they first arrived so must have been without a mother for some time. After lots of TLC, good food and veterinary care they are now fit and healthy and ready to find their forever homes. These kittens will need adopters who are at home most of the time while they are so little and young as they require regular feeding throughout the day. They are playful, active and happy little kittens who will make fantastic family pets. They are suitable to live with other cats and children aged 8 years and over.
