A little bit about Paul...

Paul is a lovely lad who came to the centre via an inspector after he was found living in squalid conditions along with many other dogs. Due to his past being very restricted, it has left him unsure when to adapting to new situations and surroundings. He is a very sweet natured boy who is learning that there is a whole world out there for him to explore, he is beginning to understand that life can be fun and exciting but it all has to be done at his own pace. Paul is a great dog, he is extremely intelligent and has already shown us he willingness to learn new things, he will need adopters who will keep his brain active. He loves his toys and would play all day long if he could, exercise is being strictly monitored at present as he is still very thin and we are still getting his weight back to a normal level after coming to us emaciated. He is a very friendly and affectionate dog and just loves being with his people and spending as much time with you as possible. Paul will need active owners who when the time is right will take him on adventures and make up for lost time, he is ready to put his past behind him and look forward to a bright future. Paul will be best suited to being the only dog in the home and could live with children aged 10 years and over.
