A little bit about Harley...

Harley is a lovely lad who came to the centre via inspectors after being found in absolutely terrible condition. This poor dog was completely matted and had to have all his fur shaved off, the fur that was shaved off weighed a whole kilo. His eyes were terribly sore from where the matted fur had irritated them so much. Harley was taken straight to the vets for emergency treatment. After he was shaved, it revealed the true extent of how badly damaged his eyes were, caused by the neglect. Harley was put on a strict eye treatment regime and as each day passes his eyes improve little by little. Sadly due to the infection and condition being left untreated for so long it has left him with permanent damage. He will need lifelong eye drops for his damaged eyes, he is getting used to all eye drops with a little help with some primula squirty cheese. He is a little visually impaired but is not totally blind and can see little bits. He needs his person to not let him fall down curbs and walk in to things. Harley is a lovely little lad who despite his terrible past is now loving life and making up for lost time, he loves to be with you and loves a fuss, he is then off again investigating everything that is new to him. Harley has missed out on so much up to now and now just needs that loving new home. He will make his new adopters a wonderful addition to the family.

My personality...

I walk nicely on a lead

I can be left alone for short periods

I could live with children of
secondary school age

I'm quiet but full of love

I may be able to live with another
dog

I need to learn how to play
