A little bit about Pepper...

Pepper is a retired racer who has hung up her running shoes and is fully ready to step into her true calling: being a professional loungeur. Like most Greyhounds, she is exceptionally soft, sensitive, and deeply loyal. She loves nothing more than leaning gently against your legs for cuddles and sleeping flat on her back with all four legs in the air on a warm comfy sofa. Coming from a racing background, the big wide world of household items (like stairs and shiny laminate floors) is still a bit new and exciting, so it may take Pepper a little while to get used to them, but with your help and love she will soon learn. Pepper is a super sweet, friendly and very affectionate girl, she walks well on the lead and gets on with most other dogs of similar size. Pepper is ready to do everything a dog should do, she is ready to go on adventures with her new family, she is ready to feel the sand beneath her paws and enjoy life as it should be. Pepper is suitable to live with other dogs of similar size after a successful introduction at the centre and could live with children aged 8 years and over.

My personality...

I walk nicely on a lead

I can be left alone for short periods

I could live with children of secondary school age

I love to snooze

I may be able to live with another
dog

I love fuss and attention
