A little bit about Beverley...

At just 7 months old, Beverley has already been through more than any puppy should ever have to endure. This beautiful crossbreed came into our care via an inspector after being left without the veterinary treatment she desperately needed following a broken leg. Sadly, by the time she received the care she needed, her leg was too badly damaged to be saved and amputation was the only option. But if Beverley has taught us anything, it's that having three legs certainly doesn't mean having three-legged limits! Despite everything she has been through, Beverley remains the happiest, most lovable girl who seems to absolutely adore life. She has shown incredible resilience throughout her treatment and recovery, and whilst she is still learning to navigate the world on three legs, she does so with the most wonderful positivity and bravery. Nothing seems to dampen her enthusiasm for life! Now it's time for Beverley to find the loving family she deserves. We want a home that will show her the world, take her on adventures and make countless happy memories together. Beverley absolutely loves people and other dogs, so she has plenty of love to give to everyone she meets. As she is still such a young girl, she will need someone around for most of the day to provide her with the companionship, guidance and reassurance she needs as she continues to grow. Don't be fooled into thinking Beverley is looking for a quiet life just because she has three legs! This girl is extremely intelligent, active and full of beans. A little potter around the block simply isn't going to cut it for her. She needs a family who are willing to think outside the box, get creative and find fun ways to keep her both mentally and physically stimulated, whilst being mindful of her individual needs as a three-legged dog. Beverley may have had a difficult start to life, but she hasn't let that define her. She is proof that resilience comes in all shapes and

sizes (and sometimes with three legs!). We are looking for that special family who will see past what Beverley has lost and focus on everything she has to offer. In return, you'll have a fun-loving, clever, affectionate and wonderfully spirited little companion who is ready to embrace every adventure life has waiting for her. Beverley is suitable to live with another dog after a successful meet at the centre and children aged 10 years and over.

My personality...

- I need training how to sit nicely (and then I can master the rest)
- I need teaching that it’s ok to be alone
- I could live with children of secondary school age
- I’m always on the go
- I may be able to live with another dog
- I love fuss and attention
