A little bit about Logan...

Logan came to the centre via an inspector after being found abandoned in a house, he is such a sweet cat with the loveliest of temperaments. He is always first in line on a morning for a cuddle and will just lap it up for as long as you will give it to him. He is very playful but playtimes will need to be managed as he can get a little over excited and become a little rough. Logan unfortunately had quite a severe allergic reaction to either his flea treatment or his vaccination which sadly took rather a long time to heal so he has been waiting patiently for the time to be right to find his forever home. He is now pretty much all healed up so we now feel he is ready to find a loving new home. He will make the most fantastic family pet, he previously lived with dogs so could live with dogs again providing the dogs have previously lived with cats. He would be best suited to being a housecat and could live with children aged 8 years and over.

My personality...

I'd prefer to be the only cat in a home

I need to be kept indoors

I could live with children

I'm full of energy and love to play
