## A little bit about Rose...

Rose came to the centre via an inspector in appalling condition, she had been found found wondering the streets all alone and very poorly. After receiving the appropriate vet care and lots of TLC Rose is now ready to start her new life. Sadly Rose suffers with Pancreatitis for which she is on a special diet for, she is well on the road to recovery and just needs to be in a loving home. The trauma of being abandoned on the streets has left Rose feeling very unsure and nervous around people. Once she realizes you mean her no harm she enjoys a tickle under the chin. Rose just needs a nice quiet, patient and understanding family who will help her overcome her insecurities and learn to enjoy life again. Please find it in your heart to give our sweet older lady the loving home she deserves, she is best suited to an adult only home with no other pets. Rose will need to be a housecat.
