A little bit about Gabriel...

Gabriel came to the centre via an inspector after being found with a nasty wound on his face, he was signed over to us so we were able to treat his wound and find him a new home. Gabriel is well on the road to a full recovery and we now feel he is ready to start looking for a loving new home. He will still need to stay at the centre for a little while longer but he is ready to at least get himself reserved. Gabriel is a real friendly chap who is always first in line for some attention and some fuss, he has been an absolute star throughout all his treatment. He is a lively and playful cat who will keep his new adopters entertained with all his cheeky and adorable antics. He can sometimes get a little rough when he is playing but he means no harm. He really will make a great family pet. He is best suited to be the only cat in the home and is suitable to live with children aged 6 years and over.

My personality...

I'd prefer to be the only cat in a home

I need to be able to go outside and explore

I could live with children

I'm full of energy and love to play
