A little bit about Blossom...

Blossom came to the centre via an inspector after she was found abandoned in shocking condition, this poor old girl had an awful large ulcerated growth on her shoulder which had become infected and bleeding. This has been removed and tested and was thankfully benign. Blossom still has a growth on her tummy which will be removed when she is spayed, she is also arthritic on all four of her legs for which she is on medication for. Despite all this she is the sweetest, friendliest and happiest of dogs, she really is an absolute pleasure to look after. Blossom will make someone a fantastic pet and best friend if only they will give her a chance. Blossom is pretty good with most dogs she meets although she can be a little boisterous with the smaller ones. If she were to live with another dog she would be best suited to one that is about the same size as her. She could live with children aged 8 years and over.

My personality...

I know how to sit (and lots of other commands too!)

I can be left alone for short periods

I'd prefer not to live with a cat

I could live with children of secondary school age

I'm a gentle giant (big and strong)

I'd prefer to be the only dog in a home
