## A little bit about Suzie, Sarah & Suki...

Suzie, Sarah and Suki came to the centre via an inspector after their needs were not getting met. They came from a multi cat home and have not been given the attention they needed while young so are extremely nervous around new situations and meeting new people. We are looking for patient adopters who will give them the time and space they need to settle into family life and overcome their insecurities. We are really hoping to re home these cats as a three, they are so bonded to each other and have been through so much together. They have had such a tough life up to now but have stuck by each other and together they have come out on the other side so it would be amazing if we could keep this little family of sisters together. We understand this is a big ask but this is a special little family who would love to stay together. They will need a home where adopters have a spare room they can be kept in until they have settled in and gained confidence. They are lovely girls who have come on well since arriving at the centre and we now feel they would be better just finding their forever home. They are not aggressive in any way they are just very scared. We are looking for an adult only home. Suzie, Sarah & Suki are house cats.
