A little bit about Amber, Ruby & Sphene...

Sweet and inquisitive degus who will need experienced adopters as they have sadly not had much handling before coming to the centre. They will time and patience to help them over come their insecurities. When applying for the degus please include photos of the accommodation when you submit the Perfect Match Form as suitable accommodation is a vital part of the adoption process. They are slowly settling down and starting to come out of their shells and we now feel they are ready to start a new chapter in their life in a forever home.
