A little bit about Gizmo...

Gizmo came to the centre via an inspector in terrible condition, this poor lad had a terrible skin condition and had pretty much lost all his fur. He has been in a foster home and is now healthy and ready to start to look for his forever home. Gizmo is looking for an adult only home as he has been left slightly untrusting of people he does not know, once he knows you and you understand his quirky little ways he is the most affectionate and loyal little lad you could wish for. He will need adopters who are at home most of the time as he does suffer with some separation anxieties. Gizmo is an attention seeker and loves nothing more than following you around and sitting beside you while you watch tele and relax. Gizmo will need adopters who have the time and patience to devote to him and get to know how he sees life and understand him for who he is and not want to change him. At present he shares his home with two cats and a quiet female dog so he could live with these again but it would need to be a quiet dog who will not bother him or try to boss him about. We will be collecting Perfect Match Forms for Gizmo and selecting the most suitable home for him.
