## A little bit about TT...

TT came to the centre via an inspector after her owner could no longer take care of her, she is a very sweet natured girl who loves nothing more than being with you and having a fuss. She would love a nice quiet home with adopters who will let her snuggle on the sofa with them. TT spends most of her time snoozing the days away in her comfy bed by the heater, she wakes up, has a snack and then goes back to bed again for another snooze. She will always wake up quickly when she knows the cuddles are going round. She is suitable to live with children aged 13 years and over and will need to be a house cat.

### My personality...

I'd prefer to be the only cat in a home

I need to be kept indoors

I could live with children of secondary school age

I love a cat nap

I would prefer not to live with a dog
