## A little bit about Fern...

Fern is a really sweet natured girl who has sadly been returned to the centre as her devoted owner sadly passed away. She is missing being part of a loving home so we are hoping she will not be waiting too long for her new forever home. Fern is a very gentle, laid back and quiet cat who is used to living a quiet life so we are looking for a nice quiet home where she can settle and be happy. She would love to snuggle up on the sofa with you on those dark nights and keep you company while you watch tv or read your book. Fern is best suited to being the only pet and any children will need to be aged 12 years and over.

### My personality...

I'd prefer to be the only cat in a home

I'll probably spend more time inside

I could live with children of secondary school age

I'm independent; I like to do my own thing!
