A little bit about Peggy...

Peggy came to the centre via an inspector after her needs were not getting met, she is a very sweet natured girl with a heart of gold. Peggy will make a fantastic and loyal companion for an adopter who is looking for a quiet and loving dog.

Peggy walks well on the lead, can be left on her own for short periods and is sociable with other dogs.

Peggy has recently been diagnosed with Cushings Disease which is controlled by medication, she manages this exceptionally well and does not let it put her off going for nice walks and enjoying life. We really would love to see this wonderful girl in a loving new home where she deserves to be.

Peggy is suitable to live with children aged 10 years and over.

My personality...

I walk nicely on a lead

I can be left alone for short periods

I'd prefer to be the only animal in a home

I could live with children of secondary school age

I love to snooze

I'd prefer to be the only dog in a home
