A little bit about Binky...

Binky is a shy little girl who came to the centre after she was found abandoned in a bin, poor Binky was in a terrible state when she was brought to us. She was ever so thin and terrified, Binky just did not know what was going to happen next. With lots of tender love and care she has come out of her shell and began to trust people again, she is now starting to enjoy life again. Binky will need a nice quiet home with adopters who will understand her insecurities and help her overcome her shyness, she really will make a very sweet pet given the chance. We feel Binky will be best suited as an only pet in a home where any children are aged 14 years and over. Binky will need to be a house cat for her own safety as she is partially sighted in one of her eyes. Please find it in your heart to offer this sweet old girl her happy ever after.

My personality...

I'd prefer to be the only cat in a home

I need to be kept indoors

I could live with children of secondary school age

I love a cat nap
