## A little bit about Star & Cloud...

Star and Cloud ( longhair ) came to the centre via an inspector along with multiple other cats, after a very lengthy and tough legal battle we can now find them loving new homes. They have come along way from the scared, skinny cats that they were when we first got them. Sadly they were very untrusting of people when they first arrived here with us. Staff have worked hard building up their confidence and it's great seeing them now enjoying a fuss. Cloud is still quite shy but will now stay while you talk to him rather than run away. He will need adopters who will understand him and help him overcome his insecurities. Star and Cloud will need patient adopters who will help them adjust to family life, they will need a spare room to begin with until they get their baring's and settle in. They have had such a tough life before coming to the centre, having to search for each scrap of food they could find. They are now ready to start the next chapter with adopters who will love and cherish them and make up for lost time. They really are very special cats who deserve a very special home. They will need an adult only home where they will be permanent house cats. We will be homing them as a pair.
